Education

- 2012 - 2014 **Master of Science, Physiotherapy**
McMaster University, Hamilton, Ontario
- 2006 - 2010 **Honours Bachelor of Science, Kinesiology**
Lakehead University, Thunder Bay, Ontario

Summary

I am a motivated individual with over 11 years of experience working in the healthcare field, with 6 of those as a registered physiotherapist. I am passionate about health and fitness and I enjoy working with others to help them reach their health related goals. I strongly believe in educating patients on their injuries and disorders, while providing appropriate home exercises/treatments so that they can begin to help themselves. I love to learn and am always looking for opportunities to better myself as a practitioner. I enjoy learning from others and taking part in continuing education courses.

Work Experience

- 2019-Present **Registered Physiotherapist**
Elevation Physiotherapy and Wellness, Mississauga, Ontario
- Perform individualized assessments with the use of appropriate outcome measures, provide accurate diagnosis, generate and administer evidence based treatment plans for a variety of orthopaedic conditions to people of all ages (7 to 97 years old)
 - Specialize in pelvic health physiotherapy for adult women and men; treating conditions such as urinary and bowel incontinence, frequency and urgency, pelvic area pain, post prostatectomy rehab, post hysterectomy rehab, prenatal and postpartum population, diastasis recti, dyspareunia, pelvic organ prolapse
 - Provide referrals to massage therapy, psychotherapy/counseling, and therapeutic yoga
 - Bi-weekly physio gathering to discuss patient care, mentorship time, case studies, share course education, etc
 - Provide exercise therapy, manual therapy, patient education, and home programs
 - Continued education by completing courses, attending webinars, and symposiums
- 2015 - 2018 **Registered Physiotherapist**
Reflex Medical Centre, Mississauga, Ontario
- Resident Physiotherapist April 2015 to February 2016
 - Performed individualized assessments on new patients
 - Created and implemented treatment plans structured around initial assessment
 - Provided the following treatments based on assessments and continuous reassessments; manual therapy, exercise therapy, modalities, and orthopaedic bracing
 - Supervised and delegated tasks to various physiotherapy assistants and students
 - Patient demographic included people of all ages with various orthopedic conditions
 - Treated a small minority of patients suffering from cardiovascular diseases, neurological disorders, and vestibular disorders
 - Frequently worked with patients under WSIB and with patients who have been involved in motor vehicle accidents
 - Experience advocating for physiotherapy by going to various local events and educating the public on the benefits of physiotherapy and the role of physiotherapists in health care

2011 - 2012 **Kinesiologist**

Physiomed Dixie, Mississauga, Ontario

- Taught and supervised patient exercise plans under the supervision of chiropractor and physiotherapist
- Applied treatment modalities including interferential current therapy (IFC), ultrasound, and thermotherapy
- Recorded patient exercise completion, notified supervising therapist of patient progress and provided recommendations for exercise progression
- Alerted supervising therapist of any patient changes
- Coordinated patient sessions amidst appointments with various practitioners

Related Experience

Mar - Apr 2014

Physical Therapy Student Intern – Pediatric Neurorehabilitation

George Jeffrey Children's Centre, Thunder Bay, Ontario

- Observed, performed, and documented neurological and gross motor assessments of children ages 6-13 years old with various neurological conditions
- Developed handling skills to facilitate skill acquisition and incorporated play into treatments
- Assisted with orthotics clinic, Spring Dance, and hydrotherapy sessions
- Attended home therapy sessions with supervising physiotherapist during a 3 day trip in the rural communities surrounding Thunder Bay
- Evaluation from clinical supervisor highlighted strengths in creating a calm, comfortable treatment atmosphere for children and their families as well as being flexible and creative to enhance treatment sessions
